Dear Mrs. Bult,

Based on your advertisement in the "Fox" magazine I am submitting my CV, thus expressing an interest in the opened position.

I am experienced in working with children – in 1997 I was involved in a project called "Green Star" whose purpose was to help children from South-east Asia. As stated in my CV, I also attended a PR Management course that set an important basis for me becoming a high-quality project manager.

I will be glad to be given the opportunity to assert my personal and professional qualities in this project.

Thank you for your consideration.

Sincerely,
